

Ending domestic abuse

Research Analyst

Reports to	Senior Research Analyst
Hours	1.0 FTE (37.5 hours per week)
Duration	Fixed term contract – June 2022
Salary	£22 – 28,000pa
Location	Bristol based (or home based with regular attendance at the Bristol office), with regular travel around the UK
Benefit	A generous package including 25 days holiday a year and public holidays, employee pension scheme with up to 4% employer contribution, childcare voucher scheme, Cycle2Work scheme

About SafeLives

We are SafeLives, the UK-wide charity dedicated to ending domestic abuse, for everyone and for good.

We work with organisations across the UK to transform the response to domestic abuse. We want what you would want for your best friend. We listen to survivors, putting their voices at the heart of our thinking. We look at the whole picture for each individual and family to get the right help at the right time to make families everywhere safe and well. And we challenge perpetrators to change, asking ‘why doesn’t he stop?’ rather than ‘why doesn’t she leave?’ This applies whatever the gender of the victim or perpetrator and whatever the nature of their relationship.

Last year alone, nearly 11,000 professionals working on the frontline received our training. Over 65,000 adults at risk of serious harm or murder and more than 85,000 children received support through dedicated multi-agency support designed by us and delivered with partners. In the last three years, over 1,000 perpetrators have been challenged and supported to change by interventions we created with partners, and that’s just the start.

Together we can end domestic abuse. Forever. For everyone.

Key purpose of the role

SafeLives has an unparalleled track record of using evidence and research to effect national change; with research and analysis being fundamental to helping SafeLives achieve its strategy. This information is used to set our policy messages, define our strategy, design our services and evidences the impact of the work we have done.

This role is an exciting opportunity to help transform the response to domestic abuse by ensuring the sector is evidence led. SafeLives holds the largest datasets on victims and perpetrators of domestic abuse nationally which you will use to inform our ambitious policy and research agenda. Working alongside our practice experts, survivors of abuse, and our expert research team, you will help to answer important questions about what works in ending domestic abuse.

Ending domestic abuse

The research analyst will be responsible for working with and supporting the Senior Research Analyst and Research Managers to develop and deliver rigorous and sector leading data, analysis and recommendations across the full range of SafeLives programmes and products. We need an enthusiastic, innovative and capable individual with the technical ability to keep our unique sector leading evidence base relevant and informative to all our users; local service providers, commissioners and national government. The evidence you produce will inform and influence national policy makers, funders and stakeholders to improve the response for families living with domestic abuse.

The role will be flexible to support the work of the team across the different research programs which include:

- National data (Insights, Marac and Mash data). Our national datasets bring together evidence of the current response to domestic abuse. Insights is our pioneering outcome measurement service which is embedded in front line domestic abuse services and used by practitioners, funders and policy makers to magnify their impact on the lives of adults, children and young people and victims of sexual violence. Our unique Marac data monitors the performance of all 290 Maracs across the country adding to the understanding of the response to high risk domestic abuse; informing local and national policy and practice
- Multi-site, multi-method evaluations to evidence the impact of innovative new interventions;
- Drive – quasi-experimental evaluation of our pilot providing a response to high risk perpetrators of abuse, building a national dataset on perpetrators of abuse and currently being evaluated by the University of Bristol
- Contributing to SafeLives policy, practice and research projects including Spotlights which focuses on a different theme in the domestic abuse sector every quarter.
- Evaluations of specialist domestic violence services carried out on a consultancy basis
- Cost benefit analyses to influence and recognise the financial cost of domestic abuse to areas, services and the government.

Key duties and responsibilities:

1. Support front-line services, practitioners, and their representatives to gather data on all family members affected by domestic abuse including but not exclusively children, adult victims and perpetrators, assisting with the design of data tools, delivering training and contributing to the development of training and analysis materials.
2. Conduct analysis of data on families where there is domestic abuse, and/or perpetrators of abuse using appropriate and tested methods to produce accurate and timely results, and testing interpretation with practice experts within and external to SafeLives.
3. Support the interpretation and dissemination of messages from SafeLives research data, including writing and contributing to reports and papers as required, drawing out

Ending domestic abuse

clear implications from the data for policy and practice, and presenting findings back to front-line practitioners, commissioners and policy-makers.

4. To liaise with external stakeholders and other external contacts in order to develop positive working relationships and respond to queries as appropriate.
5. Enter data onto various databases, including Excel and SPSS with consistency and accuracy.
6. Provide data and analysis support for the priority development areas of work/systemic gaps, e.g. perpetrator and victim voice strategy; responding effectively to black and minoritised groups; responding effectively to LGBTQ groups
7. Be a confident communicator, with the ability to convey complex messages in a way that nonexpert audiences can understand and engage with and deliver clear and coherent reports and presentations for internal and external stakeholders.
8. Be responsible for ensuring the completeness, accuracy, robustness and timely production of all data and narrative reports, and other research and policy outputs.
9. Day to day management of SafeLives' datasets, including answering queries from and providing support to practitioners and internal teams, management of online data collection tools and oversight of the accuracy and integrity of the dataset.
10. With colleagues, support the recruitment of new services, through marketing materials, presentations, and individual conversations.
11. Support the Senior Research Analyst and Research Manager to develop cross data set working and awareness with other members of the R&A team.
12. Work closely with the internal teams to ensure data analysis and outcomes are linked to best practice recommendations (which are fed into the reports) and ensure all reports, messages and outputs are aligned with SafeLives practice messages and best practice.
13. Contribute to analysis and drafting of policy, practice and research briefings and other communications, drawing on SafeLives' national and programme datasets to influence the public policy agenda and standards of good practice.
14. Use knowledge of quantitative and qualitative methodologies to contribute to project design and the development of research tools such as new forms, questionnaires, focus groups and online surveys.
15. Support the scoping, design and development of new data and analysis projects to support SafeLives' new strategy and future programmes.
16. Disseminate research and evaluation findings to internal and external partners using a range of appropriate formats and communication tools.

Ending domestic abuse

17. Keep up to date with research literature relevant to projects and relevant new developments in research methodology.
18. To ensure that any data collected, analysed and or shared whilst performing these duties is handled in line with SafeLives Data protection, data storage and collection policy and protocols.
19. To engage in a constructive and effective way with all survivors of abuse, through calls to the office, Pioneer interaction, colleagues and any other interaction we have in our day to day work
20. Undertake any other duties as may reasonably be required

Person specification

Experience

- Educated to degree level or holding an equivalent professional qualification.

Skills: essential

- Experience of working within a research and/or data analysis setting.
- Excellent analytical skills, with experience and knowledge using Excel to an intermediate level.
- Experience in the production of written reports or similar.
- Excellent IT skills including knowledge and experience of Microsoft Word, Microsoft Excel, PowerPoint and Microsoft Outlook.

Skills / experience: desirable

- Experience of delivering quantitative research, in particular managing, analysing and drawing meaning from large data sets.
- Experience of presenting to stakeholders and disseminating complex information in a practical, understandable fashion.
- Experience of conducting statistical analyses using an appropriate statistical package e.g. SPSS.
- Experience of using SNAP survey software.
- Experience of using qualitative research techniques

COMPETENCIES

Delivering quality

- Strong data analysis skills with the ability to work across multiple large-scale datasets utilising a variety of data systems, whilst maintaining attention to detail
- Strong time management and organisational skills including the ability to manage multiple projects, prioritise own work and meet tight deadlines.
- Self-starter with the ability able to use their initiative and judgement to identify problems and propose solutions.
- Takes responsibility for own workload, acts on own initiative, seeks feedback from others, evaluates own performance and then acts upon it
- Tries out new ideas and ways of working and identifies and shares learning.

Ending domestic abuse

Communication & Relationship management

- Strong written skills, with experience of writing reports, guidance, or briefings to influence policy or practice.
- Builds and maintains good relationships with a range of internal and external stakeholders
- Speaks and writes clearly and effectively and in a timely manner to both internal and external audiences
- Strong oral communication skills, with experience effectively communicating to a range of audiences.
- Proven ability to maintain confidentiality and be discreet at all times.

Influence

- A genuine interest and commitment to contribute to SafeLives' goals to support high risk victims of domestic abuse, and young victims in particular.
- Inspires confidence and trust– demonstrating high standards of integrity, honesty and fairness
- Actively engages the knowledge, ideas, and contributions of other

Innovation and creativity

- Looks for ways to improve current practice
- Tries out new ideas, working practices and technologies to improve own ways of working

Teamwork and collaboration

- A strong team player, with experience of working with colleagues across a range of roles.
- Understands the benefits of teamwork and contributes willingly
- Works towards shared objectives
- Shows flexibility and works with collective decision

Equality and Inclusion

SafeLives is committed to providing equal opportunities for all, irrespective of age, disability, race, sex, religion/belief, sexuality, gender identity, marital/civil partnership, pregnancy/maternity and working patterns. We are keen to have staff that appropriately represents all the communities we serve as an organisation.

Lived Experience

We believe there is no 'them and us' in domestic abuse and recognise that applicants may have direct or indirect experience of their own, whether disclosed or not. We are committed to placing lived experience of domestic abuse at the heart of all we do, and colleagues who chose to share their personal expertise can do so openly and with organisational support.

If there is any discussion during the recruitment process regarding a candidate's personal experience of domestic abuse, it will be treated confidentially and will not be shared outside of the interview panel/Human Resources.
