## About this dataset

This data report forms part of a series of publications from SafeLives' Adult Insights dataset. It contains 938 unique individual cases at intake and 785 matched cases at exit, drawn from 11 health services across England and Wales which used the SafeLives Insights outcome measurement service between April 2015 and March 2018. Please note that due to rounding errors, some columns may not add up to 100%.

SafeLives runs the largest national database of domestic abuse cases in the UK. Our Insights database has records of more than 69,000 unique cases of adults experiencing domestic abuse from 2009 to date, and a further 3,617 unique cases of children in domestic abuse households from 2011 to date. These datasets give us an unparalleled overview of the national picture of domestic abuse. We hope that everyone working to stop domestic abuse will be able to use this data to improve their services so that victims and families get the right help sooner.

# At a glance

11 services

935 clients entered services

769 cases closed

151 clients supported with criminal and civil justice

Location of the services in the dataset

## Proportion of clients from diverse client groups

# Key findings

After support from a health Idva, the **abuse stopped completely** for nearly half of clients

Nearly **half** of clients had issues with **mental health**, and **18%** had a **disability**. **12%** of clients had a **physical disability**.

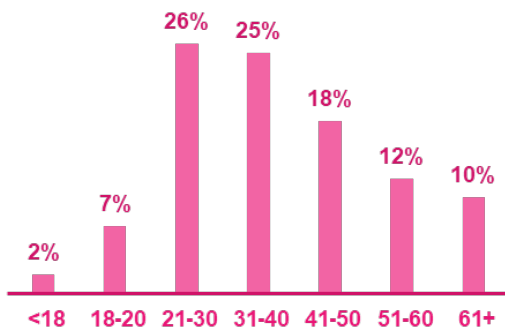

Over **two thirds** of all referrals came from GP, hospital and maternity

**Risk was reduced** for nearly three quarters of clients

following support from a health Idva

**22%** health Idva clients were over the age of 50

In cases with recorded police reports, the perpetrator of abuse was **arrested** in **68%** cases

and **charged** in **47%** cases

# Service inputs

## Cases used in the analysis

Intake forms 935

In the period April 2015 to March 2018, caseworkers submitted 976 intake forms for clients entering health services. 38 forms were excluded from the dataset due to the client appearing twice, and 3 forms were excluded due to being completed incorrectly. These forms contain information about client demographics, and the characteristics of the abuse that clients accessing health services are experiencing.

## Exit forms

769

Caseworkers submitted 800 exit forms for clients leaving health services for the period April 2015 to March 2018. Of these 15 of these were excluded due the client appearing more than once, and 16 were excluded due to being completed incorrectly. These forms were then matched to their corresponding intake form to provide a picture of client outcomes at the point of exit compared to intake. They also contain information about what interventions the client accessed.

Intake dates may occur prior to the period April 2015 to March 2018.

## Criminal and civil justice forms

151

Caseworkers supporting clients with criminal and civil justice (CCJ) submitted 156 forms for the period April 2015 to March 2018. Of these, 4 were excluded due to the client appearing more than once and 1 was excluded due to being completed incorrectly. These forms provide information on the outcomes of any criminal and civil justice interventions at exit.

New Referrals/ Repeats	2015 - 2018	
	%	n=
New Referrals	89%	832
Repeats	11%	103
<b>Total</b>	<b>100%</b>	<b>935</b>

Cases are deemed repeats if the client has returned to the service after their case was previously closed (or made inactive).

## Profile and history of abuse at intake

(Information captured at intake, n=935)

Clients' circumstances at intake		
Employment/ education	%	n
Paid employment	32%	300
Voluntary employment	<1%	2
In education/training	2%	16
Not in employment/ education	54%	506
No (retired)	8%	73
Missing	4%	38

Financial circumstances		
	%	n
Struggling to pay for essentials	21%	198
Can pay for essentials but nothing left after	32%	302
Can buy occasional treat and save a little	18%	167
Regular treats and saving or holidays	5%	51
Comfortably managing - don't have to worry	7%	61
Missing	17%	156

Information for financial circumstances was not collected prior to 2016 so data shown is from the 24 months to April 2018.

Relationship to perpetrator		
	%	n
Intimate partner	46%	432
Ex-intimate partner	42%	389
Intermittent intimate partner	3%	24
Family member (adult)	8%	71
Family member (minor)	1%	12
Other	1%	5

Additional risks		
	%	n
Multiple perpetrators	9%	85
Risk of forced marriage	<1%	3
Risk of 'honour'-based violence	1%	13

Living arrangements		
	%	n
Living together	42%	389
Not living together	52%	483
Living together intermittently	6%	58

Risk profile at intake		
Dash score	%	n
Between 0-5	24%	211
Between 6-9	28%	252
Over 10	48%	431
<b>Average Dash score</b>		<b>9 ticks</b>

Risk level	%	n
High risk	32%	297
Non-high risk	68%	638
Marac threshold	27%	250

38% of clients were assessed as high risk at intake and 34% of clients reached the threshold for referral to a multi-agency risk assessment conference (Marac).

History of abuse at intake		
Length of abuse	%	n
0-12 months	24%	239
1-2 years	16%	154
2-5 years	26%	258
5-10 years	14%	140
10+ years	19%	185
<b>Average length of abuse</b>		<b>3 years</b>

History of abuse		n = 935
	%	n
Yes, same partner in an earlier relationship	25%	235
Yes, by previous intimate partner	18%	167
Yes, perpetrated by family member	7%	61
Yes, direct abuse as a child/young person	6%	56
Yes, exposure to domestic abuse as a child/young person	7%	61
Yes, other	1%	6
No	34%	315

Information for history abuse was not collected prior to 2016, so data shown is from the period April 2016 to March 2018

Attempts to leave perpetrator in past 12 months		
Has the client attempted to leave the perpetrator?	%	n
Yes	54%	509
No	29%	268
Not Applicable	15%	142
<b>Average number of times</b>		<b>2.3</b>

Use of public services in past 12 months		
Reported the abuse to the police	%	n
Yes	43%	401
No	45%	418
Missing	12%	116
<b>Average number of times</b>		<b>2.1</b>

Visited their GP (for any reason)	%	n
Yes	56%	527
No	11%	105
Missing	33%	303
<b>Average number of times</b>		<b>6.2</b>

Attended A&E (as a result of the abuse)	%	n
Yes	30%	285
No	56%	521

No	35%	328

# Client outcomes

## Outcomes and profile of abuse at exit (Information captured at exit, n=769)

The following is an analysis of cases where an exit form was completed during the reporting period. Cases have been matched with their corresponding intake forms, and intake data here relates only to the cases which also have exit data, so will vary from the number of cases in the intake dataset.

82% of the cases with exit data were closed by the case worker according to the service's case closure policy. 17% were made inactive due to a prolonged period of no contact.

Client circumstances at exit <span style="float: right;">n = 769</span>		
Living arrangements at exit	%	n
Living together	25%	190
Not living together	69%	530
Living together intermittently	3%	23
Missing	3%	26

Where not living together, do the following apply? <span style="float: right;">Not living together = 530</span>		
	%	n
Perpetrator in jail	6%	32
Serious illness or death of perpetrator	1%	7
Other (perpetrator abroad, military duty, etc)	27%	142
None of the above	58%	306

If not living together, is there ongoing contact?		
	%	n
Clients reporting ongoing contact	38%	202
Clients reporting no ongoing contact	53%	279
Missing	9%	49

Reasons for ongoing contact <span style="float: right;">Ongoing contact = 202</span>		
	%	n
Children	67%	135
Family and social network	12%	25
Legal proceedings	10%	20
Financial arrangements	8%	16
Ongoing abuse	9%	19
Ongoing intimate partner relationship	4%	8
Other	9%	19

"Ongoing intimate partner relationship" option was added in Jan 2016, so the figures shown will be lower than the true figures.
