About this dataset

This data report forms part of a series of publications from SafeLives' Adult Insights dataset. It contains 2,296 unique individual cases at intake and 1,766 matched cases at exit, drawn from eight Outreach services which used the SafeLives Insights outcome measurement service between April 2025 and March 2026.

SafeLives runs the largest database of domestic abuse cases in the UK. Our Insights database has records of around 47,000 unique cases of adults experiencing domestic abuse from 2016 to date, and a further 13,000 unique cases of children in domestic abuse households from 2016 to date. These datasets give us an unparalleled overview of the picture of domestic abuse.

We hope that everyone working to stop domestic abuse will be able to use this data to improve their services so that victims and families get the right help sooner.

Domestic Abuse Service

If an Outreach service were to support 100 people across the year...

What support did they receive?

Numbers below may not match the percentages in the data tables as not all people present with each need

They will receive 10 direct contacts over a 16-week period

12 will be supported with criminal justice
71 will be supported with civil justice

* will be supported with safety

* 17 will be supported with drug misuse
* 16 will be supported with alcohol misuse

* 45 will be supported with social and community support

* will be supported with housing

* will be supported with their mental health

* 42 will be supported with finance, benefits and debt

* 37 will be supported with children and parenting

* These figures are calculated based on the needs reported, not the total number of forms.

What did they say as they left the service?

Numbers below based on those clients who answered each question

78 have an improved quality of life

77 will feel optimistic about the future

feel safer

have an improved sense of wellbeing

"Knowing that I had people who understood what I was going through and that could help me understand what was happening with police investigation and court."

The majority of clients* at exit were **not living** with the **perpetrator**

Just over of the clients* at exit had **no contact** with the **perpetrator**

Service inputs

Cases used in the analysis

Intake forms	2296
--------------	------

In the period April 2025 to March 2026, caseworkers submitted 2,296 intake forms for clients entering Outreach services.

These forms contain information about client demographics, and the characteristics of the abuse that clients accessing Outreach services are experiencing.

For the period April 2024 to March 2025 there were 3,190 forms submitted, and for the period April 2023 to March 2024 there were 3,224 forms submitted

Review forms

84

Caseworkers submitted 84 review forms for clients engaged with Outreach services for the period April 2025 to March 2026.

These forms are used to record further or previously undisclosed abuse.

For the period April 2024 to March 2025 there were 132 review forms submitted and for the period April 2023 to March 2024 there were 166 review forms submitted

Exit forms

1766

Caseworkers submitted 1,766 exit forms for clients leaving Outreach services for the period April 2025 to March 2026.

These forms were then matched to their corresponding intake form to provide a picture of client outcomes at the point of exit compared to intake. They also contain information about what interventions the client accessed.

Intake dates may occur prior to the period April 2025 to March 2026.

For the period April 2024 to March 2025 there were 2,530 exit forms submitted and for the period April 2023 to March 2024 there were 2,069 exit forms submitted.

Criminal and civil justice forms

83

Caseworkers supporting clients with criminal and civil justice (CCJ) supported 12 clients with criminal justice and 71 with civil justice.

These forms provide information on the outcomes of any criminal and civil justice interventions at exit, as well as support provided by caseworkers during the criminal and civil justice process.

For the period April 2024 to March 2025 there were 35 criminal justice forms and 115 civil justice forms submitted

For the period April 2023 to March 2024 there were 52 criminal justice forms and 84 civil justice forms submitted

Client outcomes

Outcomes and profile of abuse at exit
(Information captured at exit, n = 1766)

The following is an analysis of cases where an exit form was completed during the reporting period. Cases have been matched with their corresponding intake forms, and intake data here relates only to the cases which also have exit data, so will vary from the number of cases in the intake dataset.

Domestic abuse context at exit

Please note that for tables showing escalation of severity or frequency, the columns "Since intake" and "Since last review" contain two different groups of clients. "Since intake" only contains the information of all clients who have not had a review point completed, and "Since last review" only contains the information of all clients that have had a review point completed.
