About this dataset

The data in this report is from perpetrator engaging with perpetrator services between April 2023 and March 2024, and who consented to having their data used for research and monitoring purposes. Case workers filled out a total of 510 valid Intake forms and 485 valid Exit forms on behalf of perpetrator engaging with 5 local authorities using the SafeLives Insights portal.

SafeLives runs the largest database of domestic abuse cases in the UK. Our Insights database has records of more than 868000 unique cases of adults experiencing domestic abuse from 2009 to date, and a further 8,000 unique cases of children in domestic abuse households and 2000 unique cases of perpetrator from 2011 to date. These datasets give us an unparalleled overview of the picture of domestic abuse.

We hope that everyone working to stop domestic abuse will be able to use this data to improve their services so that victims and families get the right help sooner.

At a glance

Proportion of clients from diverse client groups

Domestic Abuse Service

If a service were to support 100 people across the year...

Who are they?

Average age:

31 will be new to the service

self referrals

10 will have a disability

Who else is involved?

83 have a female victim

For 50 the victim will be a current partner

91 have children 227 children will be involved

48 have been exposed to adverse childhood experiences (ACE) in the past

24 have additional victims

Most common ACE:

- 58 experienced Domestic abuse exposure
- 47 experienced Parental separation

Abuse Demonstrated

6 service users are assessed as high risk

Average length of abuse:

62 perpetrated multiple types of abuse

71 have demonstrated physical abuse 13 have demonstrated sexual abuse 37 have demonstrated harassment and / or stalking 65 have demonstrated jealous and controlling behaviours

Domestic Abuse Service

If a service were to support 100 people across the year...

What support did they receive?

Numbers below may not match the percentages in the data tables as not all people present with each need

They will receive 6 direct contacts over a 18 week period

38 service users attended group sessions

4 will be supported with children and parenting

Victims associated with service user will be supported with safety

2 will be supported with alcohol misuse 1 will be supported with drug misuse

0 clients were supported with criminal and civil justice outcomes

What did they say as they left the service?

Numbers below based on those clients who answered each question

15 have an improved relationship with children

18 have an improved quality of life

behaviour

I felt the programme works and does what it intends to do.

Ways to keep contact with the support - maintenance programme. Men mentoring other men. – Service user

20 understand the impact of behaviour

Key findings

The majority of victims associated with the service user saw a cessation for each of the abuse types after support:

Physical Abuse

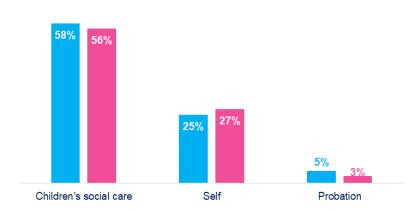

Sexual Abuse

Harassment Jealous & & Stalking

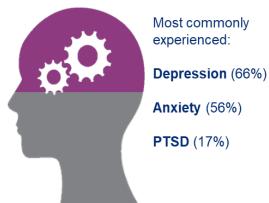

Controlling Behaviour

Most Common Referral Routes

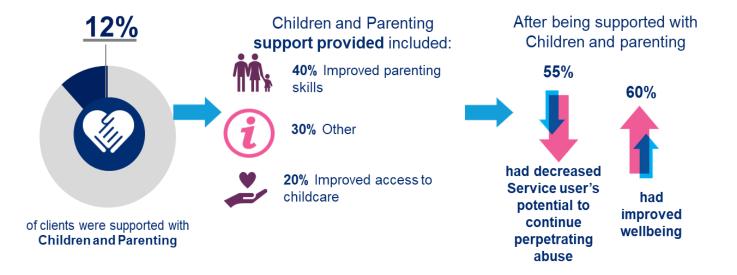

Around **three** – **fifth** of clients (64%) entered the service with a diagnosed mental health condition

2 out of 10 clients at exit said they had improved Quality of life*

*Of those clients who answered the question

Service inputs

Caseworkers submitted 510 intake forms for clients engaged with perpetrator services for the period. April 2023 to March 2024.

These forms are used to record further or previously undisclosed perpetrator abuse. For the period April 2022 to March 2023 there were 541 intake forms submitted, and for the period April 2021 to March 2022 there were 408 intake forms submitted

Caseworkers submitted 12 review forms for clients engaged with perpetrator services for the period April 2023 to March 2024.

These forms are used to record further or previously undisclosed perpetrator abuse.

For the period April 2022 to March 2023 there were 14 review forms submitted and for the period April 2021 to March 2022 there were 20 review forms submitted

Caseworkers submitted 485 exit forms for clients leaving perpetrator services for the period April 2023 to March 2024.

These forms were then matched to their corresponding intake form to provide a picture of client outcomes at the point of exit compared to intake. They also contain information about what interventions the client accessed.

Intake dates may occur prior to the period April 2023 to March 2024.

For the period April 2022 to March 2023 there were 429 exit forms submitted and for the period April 2021 to March 2022 there were 429 exit forms submitted

Criminal and civil justice forms

These forms provide information on the outcomes of any criminal and civil justice interventions at exit, as well as support provided by caseworkers during the criminal and civil justice process.

For the period April 2022 to March 2023 there was 1 criminal justice form and 1 civil justice form submitted and for the period April 2021 to March 2022 there were 3 criminal justice forms and 3 civil justice forms submitted.
