About this dataset

The data in this report is from perpetrator engaging with perpetrator services between April 2024 and March 2025, and who consented to having their data used for research and monitoring purposes. Case workers filled out a total of 436 valid Intake forms and 431 valid Exit forms on behalf of perpetrator engaging with 5 local authorities using the SafeLives Insights portal.

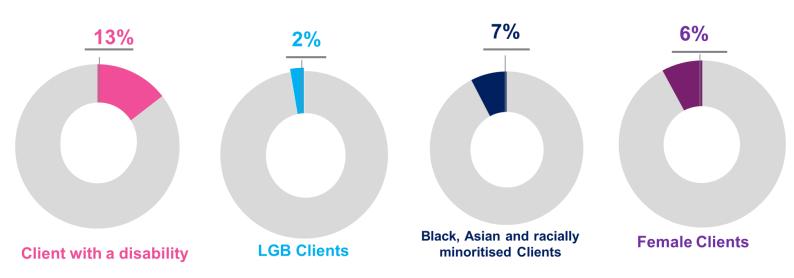

SafeLives runs the largest database of domestic abuse cases in the UK. Our Insights database has records of more than 868000 unique cases of adults experiencing domestic abuse from 2009 to date, and a further 8,000 unique cases of children in domestic abuse households and 2700 unique cases of perpetrator from 2011 to date. These datasets give us an unparalleled overview of the picture of domestic abuse.

We hope that everyone working to stop domestic abuse will be able to use this data to improve their services so that victims and families get the right help sooner.

At a glance

Proportion of clients from diverse client groups

Domestic Abuse Service

If a service were to support 100 people across the year...

Average age:

76 will be new to the service

2 referred

by the Police

the service 29 self referrals

59 will be unemployed

13 will have a disability

Who else is involved?

69 have a female victim

For 39 the victim will be a current partner

90 have children 225 children will be involved

51 have been exposed to adverse childhood experiences (ACE) in the past

21 have additional victims

Most common ACE:

- 30 experienced Domestic abuse exposure
- 27 experienced Parental separation

Abuse Demonstrated

4 service users are assessed as high risk Average length of abuse:

58 perpetrated multiple types of abuse

65 have demonstrated physical abuse 17 have demonstrated sexual abuse

37 have demonstrated harassment and / or stalking 65 have demonstrated jealous and controlling behaviours

Domestic Abuse Service

If a service were to support 100 people across the year...

What support did they receive?

Numbers below may not match the percentages in the data tables as not all people present with each need

They will receive 5 direct contacts over a 16 week period

13 service users attended group sessions

Victims associated with service user will be supported with safety

1 will be supported with alcohol misuse 2 will be supported with drug misuse

10 will be supported with children and parenting

5 will be supported with their mental health

1 client was supported with criminal justice outcomes and 1 with civil justice outcomes

What did they say as they left the service?

Numbers below based on those clients who answered each question

13 have an improved relationship with children

Reduced negative behaviour

It was really good, i found it really helpful for me to be able to deal with my anger in such a better way. I did not want to come at first but i am glad i have. The staff were really helpful and supported me, i was worried i would be judged but i dont feel like i have been— Service user

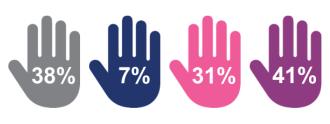

14 have an improved quality of life

15 understand the impact of behaviour

Key findings

Victims linked to the service user observed varying levels of **cessation** for each **type of abuse** following support:

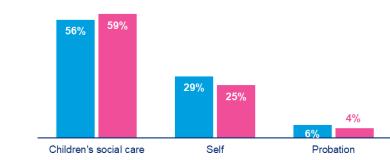

Physical Abuse Sexual Abuse Harassment & Stalking

Jealous & Controlling Behaviour

Most Common Referral Routes

2024/25 2023/24

Police referrals have decreased by 1% compared to last year

Six out of every ten clients (62%) entered the service with a diagnosed mental health condition

Most commonly experienced:

Depression (71%)

Anxiety (57%)

PTSD (13%)

Around 2 out of 10 (14%) clients at exit said they had improved quality of life*

*Of those clients who answered the question

Service inputs

 $Case workers \, submitted \, 436 \, in take \, forms \, for \, clients \, engaged \, with \, perpetator \, services \, for \, the \, period \, \, April \, 2024 \, to \, March \, 2025.$ These forms are used to record further or previously undisclosed abuse.

For the period April 2023 to March 2024 there were 518 intake forms submitted, and for the period April 2022 to March 2023 there were 541 intake forms submitted

Caseworkers submitted 4 review forms for clients engaged with perpetator services for the period April 2024 to March 2025.

For the period April 2023 to March 2024 there were 12 review forms submitted and for the period April 2022 to March 2023 there were 14 review forms submitted

Caseworkers submitted 431 exit forms for clients leaving perpetator services for the period April 2024 to March 2025.

These forms were then matched to their corresponding intake form to provide a picture of client outcomes at the point of exit compared to intake. They also contain information about what interventions the client accessed.

Intake dates may occur prior to the period April 2024 to March 2025.

For the period April 2023 to March 2024 there were 489 exit forms submitted and for the period April 2022 to March 2023 there were 429 exit forms submitted

Criminal and civil justice forms

Caseworkers supporting clients with one criminal justice form and one civil justice (CCJ) form for the period April 2024 to March 2025

These forms provide information on the outcomes of any criminal and civil justice interventions at exit, as well as support provided by caseworkers during the criminal and civil justice process.

For the period April 2023 to March 2024 there was 0 criminal justice form and 0 civil justice form submitted and for the period April 2022 to March 2023 there was 1 criminal justice form and 1 civil justice form submitted.

Client outcomes

Outcomes and profile of abuse at exit (Information captured at exit, n = 4s1)

The tollowing is an inadysis of cases where an exit form was completed during the reporting period. Cases have been matched with their corresponding intake forms, and intake data here relates only to the cases which also have set data, so will vary from the number of cases in the intake dataset.
